Additional Information: Powered with a pair Crusader 454 Freshwater cooled inboards. The port engine starts right up and sounds good. The starboard one sounds just as good, but occasionally will shut off. I believe it is the wiring to the fuel pump solenoid. Port engine stringer will need repair, it is hollowed out (have not sounded out any others). Upholstery is all in good condition as well as her interior. Large cockpit and cabin make her perfect boat for either cruising or fishing. Be sure to look at all the pictures listed. She is currently in the water for your inspection. Call us for an appointment soon.
